

Pressure Transmitter

Construction Features :

Pressure Range : 50, 100, 200, 300, 500, 1000,
3000, 5000, 10000 psi

Accuracy : $\pm 0.25\%$ of FS

Media Compatibility : Fluids compatible with 17-4 PH stainless steel

Pressure Cycles : > 10 million

Pressure Overload : 2 times rated pressure without calibration shift

Burst Pressure : 5 times rated pressure

Long term stability : $\pm 0.25\%$ FS typical (12 months)

Temperature : -40°C to 125°C
